### NOTICE.

T) UBLIC attention is drawn to the fact I that at the present time many brands of Condensed Milk are being offered for sale bearing labels so nearly representing that of the original ' EAGLE' Brand Milk manufactured solely by BORDENS CON-DENSED MILK CO. of New YORE, as the VACUUM OIL COMPANY, the are calculated to deceive the purchasors of Power of Attorney granted him by me on the real article. As an additional protect the 3rd May, 1906, has this day been tion all purchasers of Borden's Eagle revoked. Brand are requested to note that every Ting of same bears the Signature of Gail Bonners the original manufacturer on the label. Borden's 'Eagle' Brand Milk has the enviable reputation of being the Milk par excellence and without a rival in point of

view of quality and purity. Owing to Borden's special and exclusive process of manufacture both their 'EAGLE and 'GOLD SEAL' Brands are specially recommended for use in tropical climates they being guaranteed to keep better than any other Condensed Milk offered to the public.

One great reason why LEMCO is so valued by the medical profession in every part of the world is that it can always be relied on. It is essentially a standardised article, and not only does not vary in quality, but will keep absolutely in any climate. It is invaluable as a sustenant and restorative.

The genuine Liebig Company's Extract is now always and invariably labelled LEMCO. Refuse all jars not so labelled.

Awarded Gold Medal, Paris Exhibition, 1867, for founding a new industry in the world.

HOW TO DO MORE BUSINESS. MANY AMERICANS have built up great commercial enterprises, by the use of Trade-news items supplied by our CLIPPING BUREAU; Chinese mer-

chants can do the same if they follow American methods. We clip business news from more than 50,000 papers monthly, and send these items to you while there is good prespect of supplying what is needed and doing

We can send you naws and clippings on any line of business, or any subject, and you will be able to know, IN TRUTH, just what American business methods are like, and where there are openings for Chinese merchandise

Suppose, for instance, you are a maker of Pottery: our Clipping Bureau might find in some paper an item saying that a big wholesale Pottery concern was being organized in a certain town :-- we, of course, would send you that business-news item, and give you a chance to do business with that firm.

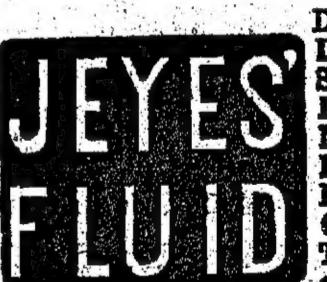

We can do just the same in any line of business, for there is always something being on that it might pay Chinese mer-

We can supply you with advertisements of all the great American merchants and manufacturers, so that you may assimilate their ideas and increase your business in Chine the way we do here.
To avoid delay, send ten dollars (Mex.)
for one month's trial order. Subsequent
rate can be determined according to service.

It won't cost any money to send for our fine Book which tells all about our service and how much it costs. Send for it to-Consular references.

Country Gentleman and a Factory Girl.

The one topic of conversation in Leicesershire hunting circles when the last mail left, England, is the romantic elopement of Mr John Deardon, a wealthy landowner, with Miss Gertie Ashby, the daughter of a village farm labourer.

Mr Dearden, who is married and has five children, belongs to one of the oldest landed families in the country. Until a few days, ago he resided at Evington House, near Leicester, a mansion standing in forty acres of grounds. He has estates at Holmstead, mear Crawley, in Sussex and at the Hollins, near Halifax. He is a first cousin of Lord Masham, his aunt having married the first baron. He is forty-seven years old. He was a well- to Sell by Public Auction, known member of the Quorn and Mr Fornie's Hunts, and was the vicar's warden at Rhington. The labourer lived with his the 20th June, 1908, at 11 A.M., on the children in a cottage on the estate.

Gertie Ashby, who is about twenty seven years old, was employed at a factory in every day. Sometimes Mr Dearden over took her in his dogeart and gave her "lift," but no notice was taken of this, Undersigned. as it is not unusual in the country. The girl is pretty, and like many of the Leicester factory operatives she dressed well. She left home on April 15, telling her sister she would return in the evening, and on the same day Mr. Dearden drove to the railway station at Leicester and took train to London. At first nothing was thought of the girl's disappearance, as it was believed she had gone to stay with friends in Leicester, but when it was fearned that she had not visited them her parents became anxious...

The mystery was solved by the receipt of the following letter from Mr Dearden by the girl's father :-

Evington House, Leicester.

Telegrams—Thurnby. Mr Ashby.-I can only imagine what you think of me now. Whatever you do please do not blame Gertie; she has tried her utmost to prevent my carrying out my withes. We have loved each other for ages, and I again ask you not to throw the blame upon Gertie, as I am wholly responsible and to blame for what we have done.

Anyhow in the event of anything happening to me, I have made full and ampleprovision for her, and I hope and pray that at some not very far distant time you be obtained from may see you way to granting her your full forgiveness.—Yours truly.

The letter was posted in London, and it the only communication that has been received from Mr Dearden. It has been learned since their departure that Mr Dearden and the girl met frequently in ; plantation on his expate.

CALCUTTA, May 21. Revolting reports are being received from Jherria of the featful havoc that cholera continues to play there, the lates European deaths being of Mr Roche, station-master, Sitrampur, and Mr Chapman of Kalipahari.

In Parhad station, Hathrass, it is reported, the dying are being thrown out in some cases with the dead, and a case is given of a woman who was cast away by her people among dead bodies to be devoured by vultures.

In another case a passenger in a train saw a coolie dying in a culvert keeping the vultures at bay with a feeble movement of the hand and foot

TIENTSIN'S TRADE.

the last issue of the Imperial Maritime Custom's returns. Compared with last year there has been a decrease in almost exhibiting a good series of films, all of every import. And, although economi- is also singiply new songs and she is nightly cally considered, less imports might be encored. Further new pictures are proregarded with equanimity, there has been a similar falling off in regard to we counsel our neighbour to take heart of grace. The present depression is attributable to causes which happily come but seldom. It was the war between Japan and Russia which caused feverish prosperity in some places and unforeseen depression in others. Every Colony and settlement in the Far East profited to some extent by the war and they are now paying the price. Business is bad, not only in Tientsin, but in Hongkong and pretty well everywhere

sooner or later. Japan is at the present

time financially exhausted and Tientsin feeling the effects, as are we. But there is plenty of room for optimism. The present circumstances are unpropi tions but human experience teaches us that bad fortune is inevitably succeeded by good. The Far East is now in the position of a man who has put his whole fortune to the legal issue and who has emerged triumphant-but at great cost. There must needs be a period of re-

cuperation and so we can assure Tientsin that although it has at the present time cause for momentary regret its trouble is but transitory. Better times are coming to the Far East. The question of China's bona-fides, with respect to the efforts being made

to suppress opium smoking throughout the Empire, is one that is often made the subject for argument, but even granting that the Chinese Government is in earnest in its protestations, there is still another factor to take . into consideration and that is . Are the Chinese officials co-operating with the Government? According to our Sunning correspondent it does not seem as they were in the districts surrounding Sunning. He writes :- "I am afraid our Anti-Opium friends were somewhat too sanguine in their expectations of what the Imperial Edict would accomplish in the direction of checking the smoking of opium. At the present time the drug is being consumed as Goods per Benvorlich undelivered after much as ever in certain parts and more stringent measures are necessary if the

opium habit is to be eradicated. The fault lies with the officials who, themselves addicted to the habit, are very lax in giving effect to the instructions from at Mr Geo. P. Lammert's Sales Rooms. | the authorities at Peking. It is also possible that bribes are responsible for the official's inactivity." It will be seen from the above that there is practically

little change in the position of affairs with regard to opium. Edicts are useless unless there is sufficient power Letters relating to business should be address- in the hands of the authorities to enforce them, and unless those who are This it seems is too much to expect yet,

#### BANDITS NEAR SUNNING.

Though it is the opinion of many that it is safer now to travel through these dis tricts (writes out Sunning Correspondent, under date June 10) than it has been for some time, yet kalnapping cases are still heard of. On June 1, a rich Chinaman was seized by a gang of robbers said to number twenty or thirty, and abdacted. The thieves received a full day's start, 'for the soldiers did not set out in chase until the following day. Up to the present the robbers have not been located. Pakho being now connected with telegraph, the line pasing through Yeung Kong, Yan Ping, San Sheung and Kongmoon, should be more than ever difficult for thickes to escape, especially as there are signs of an increase in the efficiency of the soldiers. It is now a common occurrence to meet numbers of these Chinese "braves" armed with Mauser rifles and with wellstocked belts, but it is questionable whether much rifle practice is undergone. Out of the raw recruits and the "reformed" Constant (2,500 tons), which arrived at bandits the Chinese Government ought gradually to be able to make better

In Young Kong city there is now a regular police force, the old street watchman system having been superseded by this more efficient method of protection. SUNNING, June 10. The prospects for the first crop in the Yau Ping and the Yeung-kong district are exceedingly poor, for many of the fields are even unplanted, owing to the lack sufficient rain, which has retarded all the work in the fields. In many places there will not be one crop this year, for nearly every field which is not irrigated is bare and dried up. The absence of a good harvest will further enhance the price of rice, and the poorer people in the districts will feel this increase acutely. It is quite a common sight now to see fields lying fallow for want of water, alongside fields of rice which is just ripening. The planting for the first crop is in many places now proceeding which is somewhat a rare occurrence, as the first erop should now be being garnered.

Altogether the market for Japanese goods in South China is steadily improving. Kobe reliants have commenced to receive new orders for matches and Messis Yi-Hwa and Co. alone will export 2,000 tons of matches by the earliest steamer. After all, the papers can be relied upon, to have done very little harm to Japanese articles at Canton. Owing to the boycott, the Japanese export business to Canton was checked, but the accumulated Japanese goods there were distributed. Consequently, the local merchants having no stocks on hand, there is at present an increasing demand for Japanese merchandise in that City. .

#### A SEA TRAGEDY. An Exciting Rescue.

The Brazilian training ship Benjamin

Yekohama from Honolula en June 3, had on board twenty Japanese from Wakes Island. It is stated, says the "Japan Herald," that when the sloop was passing near the island on the 20th ultimo, a red was descried signalling for rescue. Captain Gomes Pereira, commander of the training ship, ordered a boat to be lowered and a relief party was sent to the island. With considerable difficulty twenty Japan. ose were rescued during the succeeding four When rescued the men were found to have subsisted on fish for some months past and they were almost devoid of clothing. The men were well treated at the hands of the crew, and brought to Yokohams and handed over to the Water Police. Enquiries by the police dicited the fact of Yokohama, organised a party of twenty men and sent them out to Wakes Island by the sailing ship Tenshu Maru (70 tons) for the purpose of catching albatross. The men were left on the island under a foreman named Nishikawa, with foodstuffs enough to last for a year. Towards the end of last year another batch of sixteen men were sent to the island to relieve the quality will be much less, there being a party. ### TERRITORIAL ARMY.

### Probable Decrease of 58,000

Half of the special three months set apart for recruiting the Territorial Army has now elapsed, and the "midway figures concerning the attestations show that 120,000 men have joined the force out of 261,938 who were on the Yeomanry and Volunteer rolls on Janary 1 of this year men have until June 30 to come to a decision after a quarter's experiment under the new will not re-attest until the three months draw towards a close. It is estimated that the grand total on July I will not exceed 220,000. This would be a decrease of 41,000 on the strength of January 1, and a deficiency of 58,000 on the numbers existing at the end of the last Volunteer year- October 31. The figures then were

The full establishment aimed at for war would be satisfied to reach the numbers serving last year which were 85,000 short of the establishment, which stood at 363,487. In London 50 per cent. of the men have joined the new force, and this figure has also been reached in Berkshire. Cambridgeshire, Cheshire, Derbyshire, Dorseishire, Glourestershire, Hertfordshire Northumberland, Oxfordshire, Shronshire, Somerset, Worcestershire, and the East Riding. To set off against this there is alackness in many corps in Wales, in Cumberland, Devoushire. Durham, Essex. Hampshire, Laucashire, Norfolk, Northamptoushire, Nottinghamshire, Staffordshire, Surrey, and Warwickshire. It is es imated that the numbers trans-

ferred by June 15 will give an approximate idea of the final strength, as commanding officers ni ., as a rule, endeavouring to have their tolly completed, except for recrut. Court, emphasised that the tribunal was ing, before the end of June.

#### New Penal Code Sanctioned By the King.

BANGKOK, June 7: A new Penal Code has been established in Siam on European basis, and it has received the sanction of His Majesty King Chulalongkorn.

The Code is an extensive one, containing no fewer than 340 sections, and it will become operative on September 21.

For some considerable time, the Siamese authorities have been working to improve the organisation and procedure in the courts and they have now brought the Penal Code up-to-date. The codes of Criminal and Civil Proce-

dure hitherto in vogue were framed models. The organisation of the Courts was partly on the French system, In the former Codes, many defects have presented The new codes, apparently, have been

The new saloons built for the Shanghai-Nankin Railway by the Metropolitan Amalgamated Railway Carriage and Waggon Company of Birmingham, to the designs of the consulting engineers, Six John Wolfe Barry and Mr A. J. Barry, are indicative of the progress made transportation facilities in the Far East. Two saloons have just been built for this

line which equal, if indeed they do not vehicles running on American or European railways. The saloon for public service is 68 feet in length, and that built for the German territory. use of the railway is 52 feet long.

Both saloons are quite self-contained. They are each carried on two four-wheel bogies and equipped with electric light the whole width of the car and opening on to a platform. At the side of the 2 ft. 3 in, wide corridor leading from the observation saloon are situated a lavatory and state berth-room. The dining-room is 10 it. 11 in. in length, and occupies the full width of the centre of the car. ### THE MATCH INDUSTRY.

### Serious Conditions in Kobe.

The match industry in Japan appears to have suffered most of all from the depresion of trade with China consequent upon which aggregates some 400. 00 piculs and the decline of silver and the monetary stringency, and the industry is now reduced to a most trying and critical position, reports the "Jap n Chronicle." Since December last some of the match factories in Kobe have had to suspend operations. But the leading factories have continued to work in order to give employment to the operatives, in view of the importance of the industry in relation to the general prosperity of Kobe, thousands of the poorer people being dependent upon it. The manufacturers, it is now stated, can no longer afford to run their factories from altruistic motives, for under present conditions they declare they are losing money daily, the match market becoming worse and worse. A proposal has at last been made among the manufacturers in Kobe and Osaka to suspend work altogether. Already not a few of them have greatly reduced their output, and yet the stocks remaining in the godowns are estimated at about 30,000 cases. The export of matches has shown some increase in quantity of late, but the goods have been sold at very low prices and at

It is stated that the relentless attitude adopted by bankers in collecting advances has aggravated the difficulties of the match manufacturers. We may add that the operatives at present employed in the match factories of Kobs number not less than 8.000, while over 10,000 poor people ontside the factories are earning their living by making match-boxes, &c. If the work of the factories is suspended all these people will be thrown out of employment.

Bought by Foreign Powers Under Government's Nose.

'Attention is once more drawn to the question of the purchase of remounts for the Army by the Royal Commission on Horse Breeding in their twelfth annual

The Commissioners state that they have been advised that horses for military purposes are bought by foreign Powers in the United Kingdom at the age of three years, and that consequently the best are gone before the British authorities come into the market. They therefore repeat their recommendation that remounts should be purchased at the age of three instead of four, thus securing for ourselves the first choice of our own horses for our own Army, and giving a distinct encouragement to the horse-breeding industry.

BRITAIN AND DISARMAMENT.

Another Conference Mosted.

BERLIN, May 5. According to the "Berliner Tageblatt," it is rumoured in diplomatic circles here that Great Britain has not yet abandoned her endeavours to arrange an international understanding for the limitation of arma ments. For the mement the Cabinet considering the idea of inviting the other Powers to a conference of naval experts, at The Hague. The duty of this conference would be to express its views provisionally, in a non-committal sense, regarding the possibilities of disarmament. The

mediately, endeavours continue to be made towards the attainment of this aim. The steps which are now being taken are not official, but well informed personages believe that the difficulties which lie in the way will be removed in a year's time. The correspondent is further informed that it FROM ANTWERP, LONDON, MALTA, is wrong to think that Germany is the principal impediment in the realisation of the idea. It would probably be more difficult to obtain the consent of the

## Government.

The decision of the Government-anounced in the House of Commons on May 4 .-- to establish a national bureau for the study of sleeping sickness will be welcomed by all who have knowledge of that dread disease. The bureau, which will b managed by a strong and representative committee, will be supported by grants made by the British and Sudanese Governments. A convention also has been con cluded between Germany and Great Britain for the prevention of the malady in Uganda and German East Africa.

Science has accepted the theory that the disease is due to a variety of the teetse fly -the Glossina palpalis - which infests the shores of the Victoria Nyanza and the borders of some of the lakes and rivers of CONSIGNEES of Cargo are hereby Uganda. Its habitat is limited to a narrow informed that all Goods are belt of forest growth adjoining water, and it is generally believed that the infection can be transmitted only during a period of at Kowloon, whence and/or from the forty-eight hours after the tsetse fly has fed on a diseased person.

Hongkong Tides. The tide table given below has been compiled at the Nautical Almanac Office in London from the result of the analysis of observations taken by means of an auer Police Basin at Taim Sha Tsui during the years 1887-8-9. The zero of the table corresponds with the zero of the soundings in the Admiralty Charts which has been found to be 4 feet

inches below mean sea level. To obtain the depth of water on the tide gauge at the Victoria Naval Yard add feet 4 inches, and on the gauge at Lamout Dock, Aberdeen, add 10 feet 6 Inches to the height given in the table. Jure 16th to 22nd, 1908.
